Genesis--the Bible's account of human origins and the harbinger of human destiny--is a book teeming with critical problems. Derek Kidner provides a running exegetical commentary and lucidly handles the tough issues that Genesis raises. NATIONAL BESTSELLER A Book of the Year Selection for Inc. and Library Journal "This book picks up where The Tipping Point left off." -- Adam Grant, Wharton professor and New York Times bestselling author of ORIGINALS and GIVE AND TAKE Nothing "goes viral." If you think a popular movie, song, or app came out of nowhere to become a word-of-mouth success in today's crowded

media environment, you're missing the real story. Each blockbuster has a secret history—of power, influence, dark broadcasters, and passionate cults that turn some new products into cultural phenomena. Even the most brilliant ideas wither in obscurity if they fail to connect with the right network, and the consumers that matter most aren't the early adopters, but rather their friends, followers, and imitators -- the audience of your audience. In his groundbreaking investigation, Atlantic senior editor Derek Thompson uncovers the hidden psychology of why we like what we like and reveals the economics of cultural markets that invisibly shape our lives. Shattering the sentimental myths of hit-making that dominate pop culture and business, Thompson shows quality is insufficient for success, nobody has "good taste," and some of the most popular products in history were one bad break away from utter failure. It may be a new world, but there are some enduring truths to what audiences and consumers want. People love a familiar surprise: a product that is bold, yet sneakily recognizable. Every business, every artist, every person looking to promote themselves and their work wants to know what makes some works so successful while others disappear. Hit Makers is a magical mystery tour through the last century of pop culture blockbusters and the most valuable currency of the twenty-first century—people's attention. From the dawn of impressionist art to the future of Facebook, from small Etsy designers to the origin of Star Wars, Derek Thompson leaves no pet rock unturned to tell the fascinating story of how culture happens and why things become popular. In Hit Makers, Derek Thompson investigates:

- The secret link between ESPN's sticky programming and the The Weeknd's catchy choruses
- Why Facebook is today's most important newspaper
- How advertising critics predicted Donald Trump
- The 5th grader who accidentally launched "Rock Around the Clock," the biggest hit in rock and roll history
- How Barack Obama and his speechwriters think of themselves as songwriters
- How Disney conquered the world—but the future of hits belongs to savvy amateurs and individuals
- The French collector who accidentally created the Impressionist canon
- Quantitative evidence that the biggest music hits aren't always the best
- Why almost all Hollywood blockbusters are sequels, reboots, and adaptations
- Why one year--

1991--is responsible for the way pop music sounds today · Why another year --1932--created the business model of film · How data scientists proved that “going viral” is a myth · How 19th century immigration patterns explain the most heard song in the Western Hemisphere My name is Derek. I used to feel like I was just another person in the world. Living life, day by day, following my routine and letting fate take me where I was supposed to go. I decided to change that by running. I would be the one making my own path and challenging myself with new goals and new adventures. I started feeling much better and gained a lot of confidence, so I set the goal of running 25 races in 2012 and writing a book about my experiences. Each chapter describes how I was feeling, some of the events and how my attitude changed throughout the year. I used to be shy and unsure of myself about running and going through my daily routine. Now I get out and take on the world. I'm the guy you'll find running next to you, encouraging you to keep going, singing, doing back flips and getting the crowd riled up. The book mentions 15 stories about my struggles and triumphs, summing everything up in the final chapter. Running is how I began to find confidence and motivation. This book was written to help you find your passion in life and push you to live the best life you can. This is the inspiring true story of my life. I was a 5 year old foster kid who eventually found light at the end of the tunnel. I have fought for my existence. I have lived a life in which abuse, loneliness, and dark nights of despair rattled the very bones of my body, drained the tears of my spirit, shattered my mind into a million fragments, and left me for awhile plodding through life as an empty shell, a lost and helpless soul. I have breathed the air of the unloved, and suffered deep psychological and spiritual wounds due to abandonment at an early age by my mother and father. I have blamed myself for a past over which I had no control. My trust in people was displaced with hostility and anger. And yet, my spirit would not be broken. I have fought for survival in the name of love, powered by a dogged will whose voice never stopped telling me to NEVER GIVE UP! I would like to share my story with you so that you may be determined to win life's battles and finally have peace with your past. In the fifth book in the New York Times bestselling middle grade series

inspired by the life of iconic New York Yankee Derek Jeter, Derek spends the summer with his grandparents in Pequannock Township, New Jersey. Sometimes, you were looking for role models. And sometimes, you were being one yourself. Derek is having the best summer yet! Fun on the lake with his cousins, baseball, and a visit from his best friend, Dave: what more could he ask for? It gets even better when Derek gets to go to a Yankees game and meets a bunch of kids who play ball near the stadium, and they're good. Awesome, actually, especially Jumbo and Tiny. Derek can't wait to introduce them to Dave, but Grandma says if he wants to go to another Yankees game, he'll have to earn some of the money for tickets himself. This means spending quality time with Grandpa mowing lawns and learning the meaning of hard work. Derek brings Dave to meet Tiny and Jumbo, whom Derek admires. But when Jumbo tries to convince Derek to do something he's sure will get him in trouble, Derek has to rethink who his role models are. Inspired by Derek Jeter's childhood, Curveball is the fifth book in Jeter Publishing's New York Times bestselling middle grade baseball series that focuses on key life lessons from Derek Jeter's Turn 2 Foundation. The number one sports writer for kids discusses the personal life and baseball career of Derek Jeter, the young man from Michigan who achieved his dream to play shortstop for the New York Yankees. Includes career highlights and player's stats. Illustrations. The 'Skylarks' series covers a wide range of genres from adventure, humour and fairy tale to fantasy, mystery and science fiction. Each story runs to about 1000 words, broken into seven or eight chapters, and is designed to lead young independent readers into 'real' books. Truth and lies are two sides of the same coin. But who's flipping it? A thought-provoking and brilliantly entertaining work of nonfiction from one of the world's leading deceivers, the creator and star of the astonishing theater show and forthcoming film In & Of Itself. Derek DelGaudio believed he was a decent, honest man. But when irrefutable evidence to the contrary is found in an old journal, his memories are reawakened and Derek is forced to confront--and try to understand--his role in a significant act of deception from his past. Using his youthful notebook entries as a road map, Derek embarks on a soulful, often funny, sometimes dark journey,

retracing the path that led him to a world populated by charlatans, card cheats, and con artists. As stories are peeled away and artifices are revealed, Derek examines the mystery behind his father's vanishing act, the secret he inherited from his mother, the obsession he developed with sleight-of-hand that shaped his future, and the affinity he felt for the professional swindlers who taught him how to deceive others. And once he finds himself working as a crooked dealer in a big-money Hollywood card game, Derek begins to question his own sense of morality, and discovers that even a master of deception can find himself trapped inside an illusion. *A M O R A L M A N* is a wildly engaging exploration of the fictions we live as truths. It is ultimately a book about the lies we tell ourselves and the realities we manufacture in others. In 1998, comedian Derek Richards was 32 years old when he began feeling like something wasn't right. He wasn't sure what it was, he only knew he didn't feel the way he should. The last thing he was prepared for was to hear that he had cancer. In this memoir, Derek takes you through his journey with cancer - from the diagnosis that changed his life forever, through remission, all the way to the lessons of how being a cancer survivor has forever affected how he lives his life. Using his own kind of twisted humor, he tells his story in a way that will captivate, inspire and leave you laughing out loud. So, pour two shots of Irish whiskey and have a seat at the bar next to Derek, and spend a few hours listening to your new friend. You'll be glad you did. For many, the Psalms are the richest part of the Old Testament. Derek Kidner provides a fresh and penetrating guide to Psalms 73—150. He analyzes each psalm in depth, comments on interpretative questions and brings out the universal relevance of the texts. Formerly part of the Tyndale Old Testament Commentaries series, this introduction and commentary will inspire and deepen personal worship. Derek Archer had been called a killer... Susan Wade didn't know whether or not she should trust Archer—when he had come so mysteriously into her life. Whoever he really

was, the man was cool under fire and hot to the touch. His eyes said he had a score to settle, though. Publisher description In the eighth book in the New York Times bestselling middle grade series inspired by the life of iconic New York Yankee Derek Jeter, young Derek and his friends learn how to balance competitive spirits with their love of the game. As Derek and his team tackle playoffs, everyone deals with the pressure in different ways. And practice gets intense! One of Derek's teammates, Avery, starts being especially hard on herself. She isn't even enjoying the game anymore. Can Derek and the rest of the team pull her out of her funk? Inspired by Derek Jeter's childhood, this is the eighth book in Jeter Publishing's New York Times bestselling middle grade baseball series that focuses on key life lessons from Derek Jeter's Turn 2 Foundation. Derek didn't mean to become popular. His accidental photo bomb — the one that made him internet-famous — took him from invisibility to middle-school fame overnight. And you know what? He's not sure if he likes it. But his best friend Steve does, and schemes to find other ways to help Derek to remain the talk of the school. But what goes up must come down, and Derek's reluctant rise is followed by a regrettable crash. Funny, emotionally rich, and inspiring, The Rise and Fall of Derek Cowell is the latest book by award-winning, bestselling author Valerie Sherrard. Celebrating a New York icon and one of baseball's most beloved superstars Derek Jeter made his major-league debut at age 20 in 1995. The following year, he earned Rookie of the Year honors as the starting shortstop as the Yankees won the team's first championship since 1978. Over the next two decades, Jeter kept hitting and the Yankees kept winning. By the time he hung up his pinstripes at the end of the 2014 season, the Yankee captain had collected five World Series rings and 3,465 hits. He was named to 14 American League All-Star teams and boasts a .321 career batting average in the World Series. So it was no surprise

when Jeter was elected to the Baseball Hall of Fame in his first year of eligibility in 2020, receiving more than 99% of the vote. In celebration of Jeter's induction in Cooperstown in 2021, these moments and memories are collected in *Derek Jeter: A Celebration of the Yankee Captain*, a fully illustrated gift book commemorating the career of the most beloved Yankee of his generation. Featuring more than 100 photographs and unparalleled written coverage from the pages of *Sports Illustrated*, this new volume provides readers a complete portrait of the ultimate team player who became a role model and a baseball icon - from earning the Yankees starting shortstop job in spring training in 1996 to his record-setting postseason play and his walk-off single in his final game at Yankee Stadium. This commemorative book also features *Sports Illustrated*'s best written coverage of Jeter's career, including pieces by Tom Verducci, Joe Posnanski, Michael Silver, and more. Derek Bell's name became inextricably linked with that of Porsche during his long and hugely successful career as a racing driver. In this new 276-page book, Bell collaborates with renowned motorsport author Richard Heseltine to give the reader a very personal insight into his experiences racing for the legendary German marque. The approach taken by this latest publication from Porter Press International is to look at every race Bell drove for Porsche, in detail and with revealing comments from the book's subject. Light is cast on Bell's most prestigious victories with Porsche - four of his five in the Le Mans 24 Hours, three in the Daytona 24 Hours, two in the World Sportscar Championship - and many more besides. Bell describes the Porsches he raced, from the fearsome 917 to the iconic 956, 962, and 911. And he shares his thoughts on the now-legendary drivers he raced with, including six-time Le Mans winner Jacky Ickx, the famously flamboyant Hans Stuck, and two immense talents who lost their lives to the sport, Jo Siffert and Stefan Bellof. The overall effect is a fascinating trip back in time to a golden era for Porsche and sports car racing as a whole. *The Great Camping Trip* is a story where Derek and Little Jamie learn how to learn from the experiences of others, so that hard lessons may be learned without hard experiences. As both families go on a camping trip to the Great Oaks Park, Dereks father tells them a campfire story about the time he was lost

in the forest. In his story, he teaches the children about marking their way so that they can find their way back if they were ever lost. They learn lessons of being prepared and cleaning up after themselves. In *Blessing the World*, Derek A. Rivard studies liturgical blessing and its role in the religious life of Christians during the central and later Middle Ages, with a particular focus on the blessings of the Franco-Roman liturgical tradition from the tenth to late thirteenth centuries. Derek Paravicini is blind, doesn't know his fingers from his thumbs and needs round-the-clock care. But he has a rare gift - he is a musical prodigy whose piano-playing has thrilled audiences. His mentor in this journey has been teacher and music psychologist Dr Adam Ockelford. This work gives an account of their musical relationship. Seminar paper from the year 2018 in the subject American Studies - Literature, grade: 2,2, University of Frankfurt (Main) (IEAS), course: Poetry from Somewhere Else, language: English, abstract: The paper is about the imagery of nature in Derek Walcott's poetry. When reading Walcott's poetry or on closer examination of his paintings one can identify that there are symbols and metaphors that are often repeated in his works: naturalistic phenomena, such as different plants and their botanical and scientific correct names or the deep blue sea and sky and other symbols of nature. In his poems Sir Derek Alton Walcott used the imagery of nature to connect to his Caribbean heritage, to describe his own problems and experiences during child- and adulthood, and to emphasize the facets of traveling. Sir Derek Alton Walcott, who was often referred to as Derek Walcott (he also signed with this form), was born in 1930 in Castries, St. Lucia and died at his home in Cap Estate, St. Lucia in 2017. Walcott was a well-known Caribbean poet, playwright and painter who also received the Nobel Prize for literature in 1992 among other literary prizes and nominations. He also had teaching positions at Boston, Columbia, Rutgers and Yale. Throughout his career he received many literary awards, often for his epic poem collections, taught and served as a professor at different universities such as the University of Alberta (Canada) and the University of Essex (England) or the Boston University and occasionally painted excellent art works with water colors during his free time. Derek Walcott's father, Warwick Walcott, who died when the poet and his twin brother were not more than one year old, may have passed on some of his talent to his son: The artifacts he bequeathed to his family were books and paintings. The loss of the father at such an early age and his missing while growing up and

developing to a young matured man is mirrored in many of Walcott's literary works. Walcott's mother, Alix Maarlin Walcott, who was a teacher and run a school, enabled her son to publish his first collection of poems by paying a fee to send the script to Trinidad (just a few years after he had published his first single and religious poem at age 14 in a newspaper) at age 19. "'Paradise haunts gardens," writes Derek Jarman, "and it haunts mine." Jarman's public image is that of a filmmaker of genius, whose work, dwelling on themes of sexuality and violence, became a byword for controversy. But the private man was the creator of his own garden-paradise in an environment that many might think was more of a hell than a heaven - in the flat, bleak, often desolate expanse of shingle that faces the nuclear power station in Dungeness, Kent. Jarman, a passionate gardener from childhood, combined his painter's eye, his horticultural expertise and his ecological convictions to produce a landscape which combined the flints, shells and driftwood of Dungeness; sculptures made from stones, old tools and found objects; the area's indigenous plants; and shrubs and flowers introduced by Jarman himself." "This book is Derek Jarman's own record of how this garden evolved, from its earliest beginnings in 1986 to the last year of his life. More than 150 photographs taken since 1991 by his friend and photographer Howard Sooley capture the garden at all its different stages and at every season of the year. Photographs from all angles reveal the garden's complex geometric plan, its magical stone circles, and its beautiful and bizarre sculptures. We also catch glimpses of Jarman's life in Dungeness: walking, weeding, watering, or just enjoying life." "Derek Jarman's Garden is the last book Jarman wrote. Like the garden itself, it remains as a fitting memorial to a brilliant and greatly loved artist who, against all odds, made a breathtakingly beautiful garden in the most inhospitable of places. It will appeal to all those who are themselves practicing gardeners, as well as to the legions of admirers of an extraordinary man."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
